Decline in Industrial Production

157. SHRI ASHOK MITRA: Will the Minister of INDUSTRY be pleased to state:

(a) whether the rate of industrial production during the first and second quarters of 1996-97 has been lower than in the corresponding quarters in 1995-96 on all fronts;

(b) if the answer to (a) above is in the affirmative, the reason or reasons for the decline in output; and

(c) whether employment in the organised industrial sector has also shown a comparable decline in the current year?

THE MINISTER OF INDUSTRY (SHRI MURASOLI MARAN): (a) to (c) As per the latest Index of Industrial Production released by the C.S.O., the overall sectoral growth of Industrial Production in April-July, 1996-97 and the corresponding period in 1995-96 are as follows:—

Sectors	Weights	Rate of Growth (Apr-July)	
		1995-96	1996-97
Mining	11.464	15.4	1.8
Manufacturing	77.107	11.9	11.7
Electricity	11.429	12.5	2.5
Overall	100.00	12.3	9.3

The deceleration in the industrial growth is confined to a few sectors particularly the Crude Petroleum, Fertilizer and Power Generation. Sector specific strategies have been initiated to remove constraints in underperforming sectors. Adequate credit with softened interest rates assured to industries through the recently announced busy season credit policy are providing further impetus to growth.

There is no evidence to suggest that employment in the organised industrial sector has shown any comparable decline in the current year.
